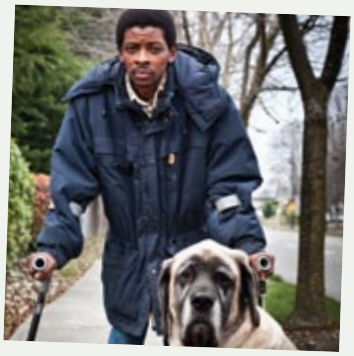
Pictures of You Wants You!

I run marathons and bike to help raise awareness.

For the past two years, *Neurology Now* has been featuring photographs of our readers, along with brief interviews, in a department called "Pictures of You." People from all over the country have shared their appreciation for these photos and inspiring stories—and expressed their desire to participate.

Although we cannot photograph each and every one of you (however much we'd like to!), we can make it easy for you to be a part of *Neurology Now*. We are now accepting submissions of photos along with a short personal statement that will serve as a caption. Annie Levy, the photographer who creates the captivating portraits for "Pictures of You," will review what you send in order to curate a "gallery" of photos. Our editors and art director will then transform the photos and captions into beautifully designed, one-of-a-kind pages that show the world who you are.

I am a college student and world traveler.



MS doesn't stop me from walking with my best friend.

Here's what you can do: E-mail us at **neurologynow@lwwny.com** with your photo and a few words telling us about yourself. And if you don't have access to e-mail, you can mail your photo and caption to: Wolters Kluwer Health, 333 Seventh Ave., 19th floor, New York, NY 10001, attn: *Neurology Now*. If you want the photo returned, include a self-addressed, stamped envelope with your submission.
