

FREE Event

Brain Health fair

**Friday, April 15, 2016 • 10:00 a.m.–4:00 p.m.
Vancouver Convention Centre • Ballroom ABCD • Vancouver, BC, Canada**

The Brain Health Fair is a free, one-day-only event offering fun, hands-on activities focused on the wonders of the brain and a unique opportunity for Vancouver area residents to connect with some of the best and brightest neurologists in the world. All students will receive a certificate of attendance upon arrival.

Here Are Three Ways Your Students Can Be a Part of the Fun!

1 Your School Could Win \$1,000

Gather everyone in your school and come to the Brain Health Fair!

Be one of five most-represented schools at the Brain Health Fair and your school could win \$1,000, a cool brain model to enhance your science program, and other great resources for learning about the wonders of the brain.

2 Brain Health Fair Science Fair

We want to see your students' cool brain-related science projects!

Students are invited to submit their science projects about the brain, spinal cord, nerves, or muscles. The winning poster will receive a prize (must be present to win). All participants will receive a certificate of participation.

Submit online by: **March 30, 2016**

3 Neuroscience Is...™ Cool Video Contest

Why is neuroscience cool?!

Neuroscience is the study of your brain and nervous system—and we want your students, ages 13–18, to tell us why they think it's cool.

This is a great opportunity to engage students with science in a fun and creative way—so tell them to grab their phones and make a video(s), up to one minute in length, for a chance to win one of two \$300 grand prizes and a trip to Vancouver to see their video(s) shown in front of a live audience at the Brain Health Fair.

Submission deadline: **March 20, 2016**
